Address. st. Swietokrzyska 30/63.

00-116 Warszawa

Dear Hiring Team,

My name is Pawel Doruzynski and I'm a specialist professional currently working at UPM RAFLATAC. I'm reaching out to express my interest in the Lukka position at Junior Data Product Specialist.

I currently work as a specialist at a Label company based in Wrocław. I have played an instrumental part in the finance department. I made a nice report in excel and my company saved some money. In addition, I want to mention two important things. I make a stocktaking once a month in excel including pivot table. I count all material of production once a week and I create a report with a conditional formatting. Next to excel, I'm interested in programming of python. I made some projects available on github. I have knowledge from SQL and I made first easy projects in Power Bi which stay with them to github too.

After reviewing the job description for the Junior Data Product Specialist position at your company, I'm eager to apply this experience to help your team and execute tasks in Excel, Python, SQL, Power Bi. I feel confident that my skills and knowledge would enable me to ramp up quickly in this position so that I could begin making an impact as soon as possible.

For more information regarding my qualifications, see attached resume. Thank you for taking the time to review my application, and look forward to speaking with you about this exciting opportunity.

Best Regards,

Pawel Doruzynski
